Subject: Enjoyed The Class!

Hi Lonnie,

Just a word of appreciation for a well done class. I knew I would be taking this course at some point and was going to be "picky" about who the instructor would be. When our mutual friend, Marvin, mentioned you were retired from the Nashville police department, I knew you would have first-hand knowledge of how things work in *actual* life-threatening situations. I chose correctly because the old saying, "You can't teach what you've never done", certainly applies here, and you didn't disappoint. Also, thank you for the breakfast and lunch, that saved us a lot of time. I will give your contact information to anyone who asks for a quality certification course.

You got me intrigued by the Glock brand and after a lot of research, it seems second to no other. I met the owner of the business you referred us to off Powell Avenue to see what he sells them for. He, too, speaks highly of you. I believe the Glock 23 will be my choice of caliber and compactness.

Thanks again, and maybe I'll see you again at the TWRA range.

Sincerely,

Trey Legler
